

JascoPro Series™ Z-Wave Smart LED Bulb

Specifications

Bulb: A19

Signal Frequency: 908.4/916 MHz

Range: Up to 150 feet from controller or closest Z-Wave device

Operating Temperature: 32-104° F (0-40° C)

Warranty: 5-year limited product warranty

For indoor use only.

Design Features

- **Full-Range Dimmability**
Adjust brightness levels from 0-100% (1% increments)
- **Omni-directional lighting**
Enbrighten LEDs are optimally configured to provide a bright, evenly distributed glow
- **60W Bulb Equivalent**
Light output is equivalent to a standard 60W bulb while only using 9W of electricity
- **Save \$140 over life of bulb****
Enbrighten LEDs can reduce energy usage by up to 85%
- **OTA (Over-the-Air) Updateable**
Utilizes the Z-Wave Firmware Update Meta Data command class for standardized wireless firmware updates
- Trilingual Instruction manual – (English, French, Spanish)

Z-Wave Plus Features

- Works with Z-Wave Classic and Z-Wave Plus Products
- 50% more wireless range
- 250% faster processor
- 400% more memory
- 50% more energy efficient
- Supports wireless upgrades to future-proof your home

** Time and cost estimates as compared to a 60W incandescent bulb over the life of the product (25,000 hrs) at .11¢/kWh. Results will vary based on rates and use.

Lighting Facts <small>Per Bulb</small>	
Brightness	750 lumens
Estimated Yearly Energy Cost	\$1.09
<small>Based on 3 hrs/day, 11¢/kWh Cost depends on rates and use</small>	
Life	22.8 years
<small>Based on 3 hrs/day</small>	
Light Appearance	
Energy Used	9 watts

Omni-Direction Light

Enbrighten LEDs are optimally configured to provide a bright, evenly distributed glow

60W Bulb Equivalent

Light output is equivalent to a standard 60W bulb while only using 9W of electricity.

**Save Energy,
Save Money**

**Full Range
Dimmability**

Device Configuration

Adding your device to a Z-Wave network

1. Follow the instructions for your Z-Wave certified controller to add the LED smart bulb to the Z-Wave network.
2. Once the controller is ready to add your LED smart bulb, turn on power to the socket. The LED smart bulb is automatically added into your network within 30 seconds, and the smart bulb flashes twice when added to the network.
3. You have complete control to turn ON/OFF your lamp or set dim levels according to groups, scenes, schedules and interactive automations programmed by your controller. If your Z-Wave certified controller features remote access, you can control your lighting from your mobile devices.

To remove and reset the device

Once the controller is ready to remove your device, turn bulb OFF, then ON three times. The smart bulb flashes twice when removed from the network.

To return your smart bulb to factory defaults

1. Start with the bulb powered off at the wall switch.
2. Follow the instructions for your Z-Wave certified controller to remove the smart bulb from the Z-Wave network.
3. Once the controller is ready to remove your smart bulb, turn ON the light switch. The smart bulb will flash twice when removed from the network.
