- 3 timer settings for accent lighting - 3 hour, 6 hour and dusk-to-dawn
- UL Wet Location Rated
- Three multi-position flexible heads
- Easy mount, quick connect (hardware included)
- Wall or eave mountable

Operation

- The JascoPro™ Series Motion LED Security & Accent Light Fixture is two fixtures in one. The light can operate as a low level, white tunable (AL, WW, CW, DL) accent light for 3 hours, 6 hours or all night (D2D). Or, the fixture can operate as a high level, motion sensor security light. The security light can also be set to function after 3 hours or 6 hours of accent light. This allows the light to illuminate and blend with existing accent lighting around your home while you may be relaxing outside, then transition to a high level, motion sensor security light in the later hours of the evening. The light also provides for wall switch toggling to enable manual security light override modes.

CUSTOMIZE POSITION
of light heads and motion sensor

SECURITY LIGHT

ACCENT LIGHT

A. Motion Sensitivity

Set detection distance to 15, 30, 50 or 70 feet

B. Security Light ON Time
