

Network IMPORTANCE

For Wi-Fi devices to function, sufficient router device-count support, proper network design and implementation, and whole-home wireless coverage are required.

- 2.4GHz Wi-Fi network required
- Needs to blanket the home where products are featured
- Wireless access points recommended for full coverage of Wi-Fi devices
- Router with IP addresses that support all Wi-Fi products

For additional information or questions, call our U.S.-based dedicated support team at 1-833-981-0170, M-F, 7 a.m.-8 p.m. Central Time.
