

TOP OFF YOUR BUILD WITH FREE TV!

Whether your clients are cord cutters, subscribers or streamers, a TV antenna provides more than just free entertainment — it can be a lifesaver, connecting them to emergency broadcasts and vital information when cable, satellite and the internet are out.

- Easy to install in the attic or outdoors
- Whole-home installation for one or more TVs
- Uses in-wall coax cable and wall jacks already in house plans

- Free TV in full 1080p HD — no costly cable or satellite bills
- Crystal-clear reception of HDTV, VHF and UHF channels
- 4K and 8K ready — no need to purchase a new antenna when broadcasts evolve

- Emergency broadcasts from local stations and national networks like ABC, NBC, CBS, FOX and more
- Reliable backup for news and weather when cable, satellite and internet are out
- ATSC 3.0* broadcast standard automatically turns on the TV to deliver emergency information — similar to AMBER Alerts on cell phones

*ATSC 3.0 (NEXTGEN TV) requires a TV with a 3.0 tuner
