

SmartCycle

MODE SELECTION FORM

Before commissioning your JascoPro SmartCycle circadian lighting system, please review the available operating modes. Your selected mode will guide how your lighting functions day to day. Your white glove technician will walk you through both options and help you select the mode that best fits your home and lifestyle.

Lighting Experience Options

STANDARD SMART MODE

Lighting automatically adjusts to follow the natural rhythm of the sun or lock in a fixed white setting

Designed for a set-and-forget approach

Less sensitive to Wi-Fi strength and router performance

ON/OFF scheduling features

Set light levels and white color temperature in the app

Optional MusicSync creates colorful light effects based on sound

ENHANCED SMART MODE

Lighting automatically adjusts to follow the natural rhythm of the sun or lock in a fixed white setting

Full app and switch-based control for personalized routines

Requires strong, consistent Wi-Fi coverage and a router capable of supporting a large network of Wi-Fi devices

Create complex lighting schedules and scenes via app

Scene control via 4-button switch — wake, work, relax, sleep

Optional MusicSync creates colorful light effects based on sound

Emergency Flash mode

COMMISSIONING CONFIRMATION

Please review and complete the section below. This form will be returned to Jasco for service records and CRM documentation.

SELECTED MODE: **STANDARD SMART MODE** **ENHANCED SMART MODE**

NUMBER OF Wi-Fi DEVICES SUPPORTED BY CUSTOMER'S NETWORK: _____
